

This 2 day training is mandatory for any counselor facilitating
DUI groups using Driving With Care

Please use the form below to register!

For more information contact CIDRE at 303-442-5780 or cidre@comcast.net

Driving With CARE (DWC) is an interactive, relational, multimodal and multi-media program in which participants take an active part in exercises, work sheets and group discussion. The DWC intervention program is built on a cognitive-behavioral platform that will help clients to

- Learn cognitive restructuring to enhance self-control over thinking and actions,
- Learn social skills to enhance responsible behavior towards others, and
- Learn skills to enhance responsible behavior towards the community.

This newly updated and interactive training focuses on the latest research related to DWI recidivism. Attendance at this training offers:

- Comprehensive training in delivering a successful, nationally renowned curriculum,
- Effective strategies for engaging challenging DWI clients,
- Curriculum tailored to Colorado,
- Information on screening and assessment tools, and
- Valuable tools such as the Participant's Manual and the Provider's Guide that include guidelines, worksheets, and tables for use with the DWI offender.
